

Support for our Troops

We can't take them out of harm's way, but at least we can keep their feet comfortable and let them know we care.

Fellow Americans,

Since the inception of the Fox River Socks for Soldiers program, we are proud to say that with the help of people like you, we have shipped our US Soldiers stationed overseas thousands of pairs of first quality socks. Many of these recipients have sent us heart-warming responses, thanking us both for the socks, and for the messages of support.

Our Fox River Socks for Soldiers program started because we received many e-mails from soldiers in the field telling us what a difference our socks have made. Many of our employees have family members serving overseas and have started various drives to get the soldiers some good socks. Having made socks for over 110 years, we know how important a quality sock can be in extreme conditions. Because of this, we thought it would be a great way to show our patriotism by giving the general public an opportunity to support our troops in a practical, caring way.

With this program being in the fourth year, we continue to receive wish lists from deployed soldiers with their sock needs. These are posted to our web site and become available for you to select from and purchase a soldier some socks, along with a personalized message of support from you. Fox River covers the shipping cost on these orders. I hope you consider helping us support our troops.

John Lessard, Owner & President, Fox River Mills

“Some soldiers from Minnesota would like to thank the donor who bought us the socks off our wish list. The socks are awesome. Even though we are the best equipped army in the world, we don't get good socks. The ones from Fox River are great. We are stationed in northern Afghanistan and live on our feet. With cold weather coming, we appreciate the generosity and the support. Please thank them for supporting us in the fight. The whole team wishes them the best...” D. Smith

Ideas for Giving:

- The price of one pair of the most popular Military sock costs \$12.99 (Style 6074). If you are sending as an individual, send a pair and a note. The personal note, coming from a stranger, means a lot to a soldier.
- Get together with a group from your school, work, church or organization. If everyone chips in even a small amount, you can make some soldier very happy. The soldier, in turn, is tickled that a whole group of people/kids are thinking of them. (HINT: Print copies of this sheet and distribute at your church, school or organization to get more interest.)
- If you need to give a gift to the person that has everything, send socks to a soldier on their behalf.

To send socks to soldiers, and take advantage of Fox River's free shipping offer, visit www.foxsox.com.
